

INDUSTRIAL TURNOUT GEAR

BRAVE UH60

Four-layer firefighter protective clothing for industrial fire brigades, certified to EN 469:2014

The **BRAVE UH60** firefighter protective clothing by Helios Innovative is designed to provide the best protection for industrial fire brigades and volunteer firefighters whose duties do not involve direct fire attack.

Its four-layer construction delivers reliable protection thanks to high manufacturing standards in accordance with EN 469:2014.

The four layers consist of a flame-resistant outer shell, two intermediate layers acting as a moisture barrier and a thermal barrier, and a high-strength comfort lining.

The suit also features full neck protection and 2-inch 3M™ Scotchlite™ reflective tape for greater user visibility and safety.

DESIGNED FOR

Industrial fire brigades

Volunteer firefighters

CONSTRUCTION

Four-layer protection

Layer	Composition
Outer shell	93% meta-aramid, 5% para-aramid, 2% antistatic fiber · 220 g/m ²

TECHNICAL SPECIFICATIONS

Technical data

Thermal protection (TPP)	35 cal/cm ²
Flame exposure	No damage greater than 1 cm after 2 seconds
Fabric tear strength	> 700 N
Water resistance	Withstands 50 kPa water pressure · Level 3
Heat stability	Change scale < 95% at 260 °C / 30 s
Oil repellency	Level 3
Breathability	5,000 g/m ² · 24 h
Weight	2.8 kg (size M)
Available sizes	S, M, L, XL, XXL, XXXL
Colors	Navy blue, ochre yellow, orange
Standard	EN 469:2014 · CE marked

FEATURES

- **Full neck protection**
- **3D radio pocket**
- **Heavy-duty front zipper** with hook-and-loop closure
- **High-performance suspenders**
- **2-inch 3M™ Scotchlite™ reflective tape** on jacket and trousers
